DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1, 2, and 8-11 are rejected under 35 U.S.C. 102(a) as being anticipated by Bruce's Custom Covers (Bruce) in view of King Bag and Manufacturing company (King).

Re - Claim 1: Bruce disclose a production device for an air intake structure of a jet engine, having a tarp with a main portion designed to close off the fan case ducting, a secondary portion fixed to the main portion (see #1 Bruce), designed to partially cover the intake cowl of the engine (see Figure 1). Bruce does not disclose a stiffening means. King however discloses that it is well known in the art to design covers that are reinforced for added protection of the engine (see Page 1, paragraph 2). It would have been obvious at the time of the invention to one having ordinary skill in the art to include the teachings of King into the device of Bruce for the reason of increasing reliability and sturdiness.

Re - Claim 2: wherein the stiffening means fitted on the secondly portion of the tarp are prolonged in the main part of the said tarp. As applied above King's tarp is fully reinforced, not only in a localized area, and therefore the stiffening means extends from the second portion to the main portion.

Re - Claims 8-11: Bruce discloses as known all the elements and limitations found in these claims. (see Figure 1)

Allowable Subject Matter

3. Claims 3-7 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Drawings

4. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
